

Downloading FeatureCAM for the First Time

When downloading FeatureCAM for the first time, you need to allow popups in your web browser.

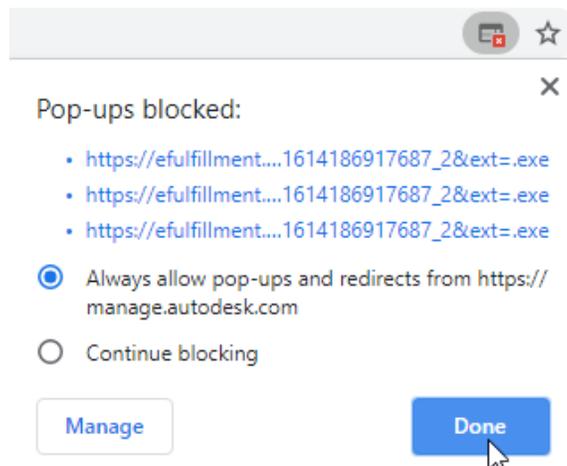

- This is normally done after you select the 'Start download' button.

- After selecting 'Start download', you will notice a 'Pop-up blocked' notification in the address bar on the right-side.

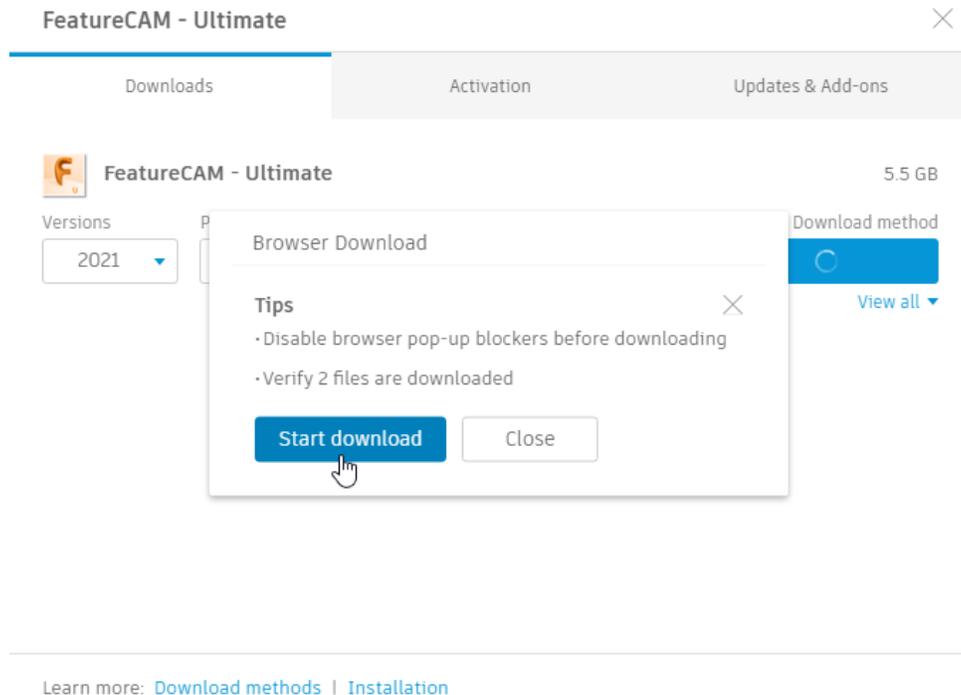

- Select the 'Pop-up blocked' notification and allow pop-ups.

Downloading FeatureCAM for the First Time

- After allowing the pop-ups, cancel the original download.
- Click on Browser download and start a new download.

This will start downloading two files that are needed to install FeatureCAM.
