

Installing PartMaker

- Installing PartMaker requires the user to install FeatureCAM.
- **Run** the FeatureCAM installer .exe file. This will create a FeatureCAM installer.

 Create_Installer_FCAMU_2023_English_WIN64.exe

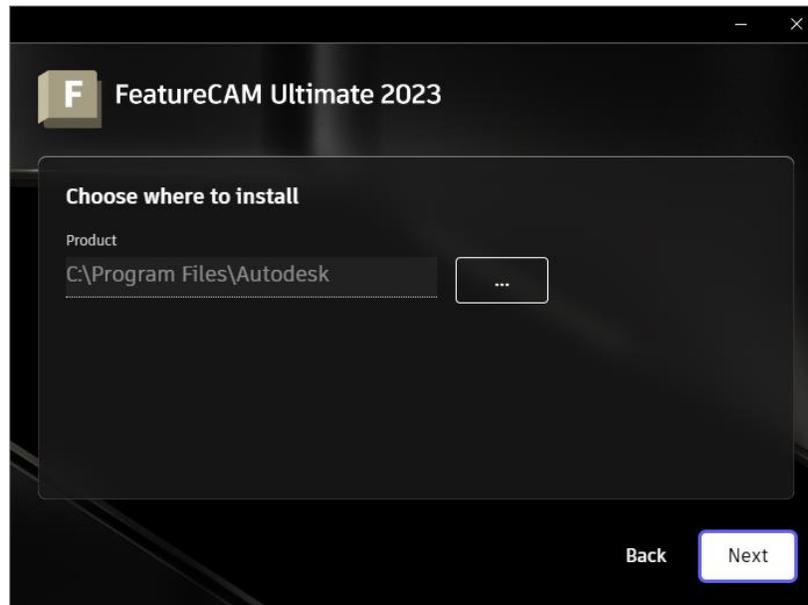

- Once completed, click on **Run Installer**.

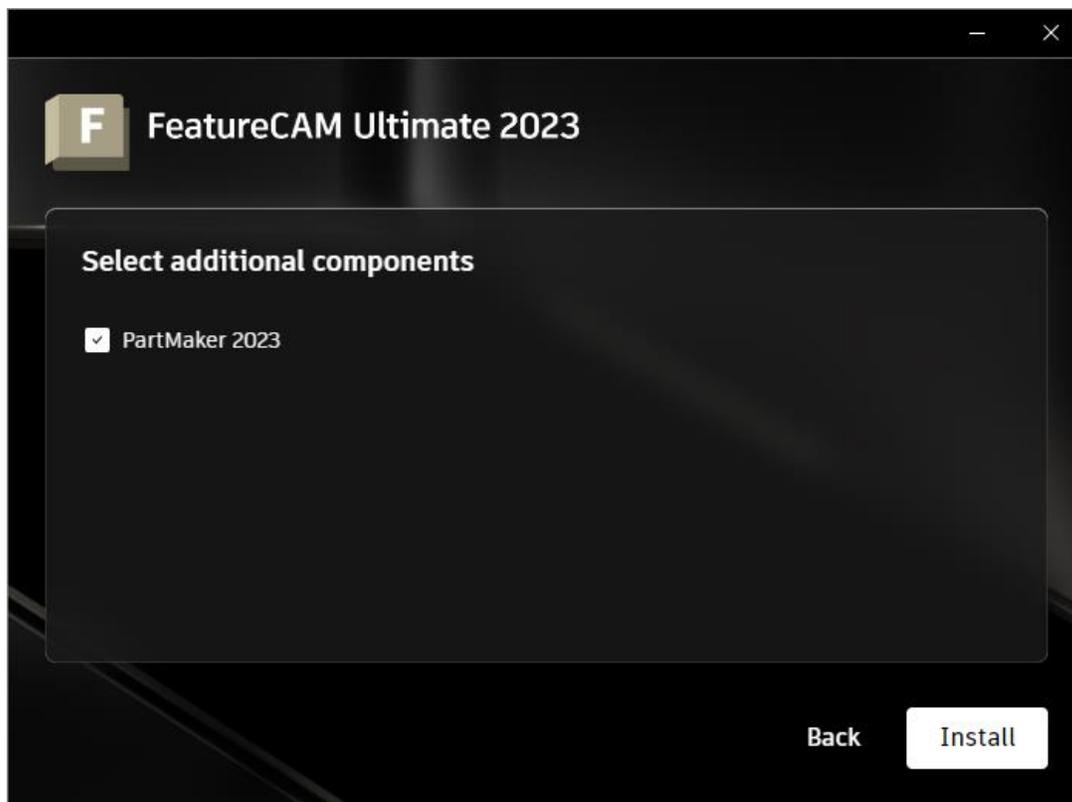

- Follow the prompts to install FeatureCAM.

Installing PartMaker

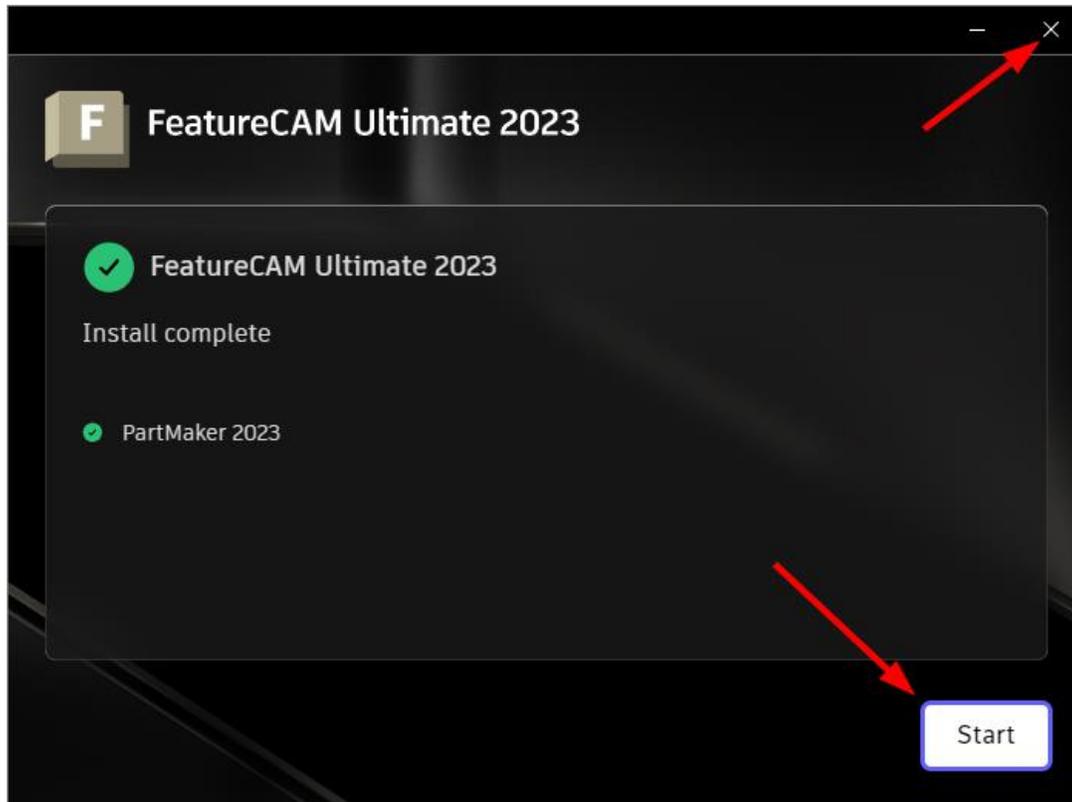

- Once you get to *Select additional components*, check **PartMaker**, then click **Install**.

Installing PartMaker

- Allow the installation to complete. Once completed, you'll notice green checkmarks.
- You can now exit out of the installation or start the software.

Installing PartMaker

If there are any issues, please submit support ticket by clicking the link below or using the instructions on the 'NexGenCAM - Support Ticket' PDF.
